This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

'Alderman Geale having informed us that the former loan of £6,900, was nearly exhausted in carrying on the works, and we directed that he should be empowered to borrow a further sum of £3,100, to complete the sum of £10,000, and that an advertizement should be inserted that such a sum was wanted for the purpose of carrying on the works; we again met on the 26th January, when Mr. Patrick laid before us the case relative to Shibbon's mill with the Recorder's opinion thereon, by which opinion the Recorder says that Mr. Vaughan will not be subject to any of the penalties of the act of parliament by turning the mill into a skins mill, provided any oozing from the skins is carefully kept from communicating with the water course. 'We again met on the 9th February, when we ordered that Mr. Crofton the storekeeper should make a return at our next meeting of what timber was then in the yard, and that he should on the first Monday in every month make a return of what timber he receives into the yard, what quantity is made use of, and what remains on hands. We also ordered, that the old timber and other materials in the yard should be sold under the direction of the committee. 'We on the 29th June again met and many complaints having been made to us of the want of water and it appearing to us that the cause of these complaints partly arise from hucksters making use of shoots and other conveyances to convey the water through the walls of their houses and that by their carelessness and neglect there was a great waste of water. We directed, that the collectors should forthwith make a return to the overseers of the names and residences of the several hucksters in each division, who make use of shoots and other conveyances and that the overseers upon receiving such return do without loss of time cause the shoots and other conveyances to be cut off and that the overseers do from time to time make a return to the committee the number of shoots they shall have cut off. We also resolved that the several turncocks be supplied with metal bells and that at the time of the turning of the water into any street, they ring the same and apprize the inhabitants of each street of their turning the cocks for supplying them with water, that by this means the inhabitants may have notice of the time the water is turned to them, and that in future they shall not have any cause of complaint of not knowing when the water is turned to them. m. 176 b.

'We further inform your honours, that Mr. Mylne from time to time reported to us the state of the works, which several reports were agreed to by us. Several complaints having been made to us of the want of water, we enquired into the reason thereof and were informed it was owing to the scarcity of water in the bason, the Canal company scarcely giving any supply, whereupon we ordered the Town Clerk to write to the secretary of the Canal company and to inform him of the great want of water the citizens experience owing to the company's not furnishing the bason with an ample supply and also to inform them, that while they continued not to grant a proper supply, the corporation of the city could not consider themselves liable to be called upon by the company for their proportion of the pipe water revenue.' City pipe water

Report. 'We proceeded in the works, since our last report, with the utmost care and attention. Your collectors having returned many insolvencies in the collection of the pipe water rents, we ordered said returns to be handed over by messieurs Cave, with directions that they should make personal application to the several persons returned in arrear and that the collectors should attend them on the occasion, and that messieurs Cave should certify to us according to the circumstances and inability of the persons returned by the collectors in arrear. Mr. John Elliott, one of your collectors, having died in the beginning of the month of June last, we thought it advisable to continue his son Faulkner Elliott in the collection in his father's stead, until your honours should elect another person to fill said vacancy, for the due execution of which said office and paying to the city treasurer all such sums of money as he should collect during his continuance, he entered into sufficient security approved of by the Lord Mayor. On the 18th of said month of June, we met and entered into the examination and auditing the collectors' accounts for the year ending the 25th March, 1778, and find them as follows, videlicet.

'So that from the above stating there is in arrear due to the 25th March aforesaid amounting to £1,686 8s. 9d., which if collected would be of considerable service in forwarding the very heavy and expensive works carrying on. On the auditing of which said accounts and on comparing the receipts and returns of the collections made since the 18th of June last, we find that the said John Elliott collected a sum of £61 11s. 5½d., which is still unaccounted for and remains unpaid, the modes of recovery whereof we submit to your honours.

'We, the committee for inspecting city leases to whom the petition of James Smith has been referred, inform your honours, that on the 23rd day of November last, we met on the occasion and took the subject matter of his petition into consideration, and the said Mr. Smith who attended us and admitted the tithes of Taghdowe were taken for him by William Worthington, esquire, at the annual rent of £145, and produced a receipt from Mr. Worthington dated the 27th February, 1778, for the sum of £140, acknowledging therein that he Mr. Worthington had received said sum from Mr. Smith towards paying the city treasurer a year's rent or deposit for said tithes, and said he gave Mr. Worthington £5, in cash to complete the year's rent. We also inform your honours, that John Giles, against whom daily complaints are made, as well for permitting almost every person arrested by him to go at large, as for not attending the chief magistrate regardless of summons or any order made or of the different attachments for contempt which issue against him for suffering persons to go at large whom he arrests on actions out of the Tholsel court on receiving some pecuniary or other gratuity contrary to his oath and bond, did not attend, we therefore apprehend he is not worthy of being continued in office longer, and that his bail should be called on to indemnify your honours from all losses on account of such his misconduct. We also find that John Barnett and David Gass, who were heretofore serjeants at mace but are not now, take upon them to execute actions as if they had been really in office, for which we apprehend they should be prosecuted by the city for imposing on the public under a pretended authority from your honours.

Taylor, Town Clerk. Illness. Lambert.

[2.] Certain of the commons, setting forth that the committee for better supplying the city with pipe water have made the annexed report of the 17th day of July, 1780.

City pipe water.

'We inform your honours, that we have attended very carefully to the business to us committed, since

Report.

Roll xxiii.A. m. 30. our last report several of the [inhabitants of] George's and the City quays having applied to us to have a main laid down on the said quays to supply that part of the town with water, we complied therewith, and ordered a main to be laid down as soon as possible, which we find has been since done. Being desirous of having the hedges and trees round the city bason clipped this season in a proper manner and having received a proposal from Luke Hill to do the same for £10, which thinking reasonable they agreed thereto and ordered it to be done under the inspection of alderman Horan and Mr. Bloxham. Thinking it most advisable and advantageous to your honours to contract with a proper person capable of furnishing the iron works that are necessary for the pipe water works, they caused an advertizement to be inserted in the public papers to receive proposals from such persons as are willing to contract for the same, and Mr. Ambrose Binns having sent a proposal and estimate to us, which we considered very reasonable and agreed thereto and think him a proper and fit person to furnish such works and ordered the said proposal and estimate to be sent to your honours' storekeeper, to be by him entered in his books, the better to regulate the conduct of said store-keeper in certifying such bills as the said Ambrose Binns may have from time to time for such business.

Your committee finding the several collectors considerably in arrear in their collections, and apprehending it might be through inattention in some of them, ordered the several arrears and insolvencies in their respective divisions, and they having done so, we were of opinion it would be most advantageous to your honours to appoint other persons to collect the arrears so returned by them, and accordingly appointed Mr. Faulkner Elliott to collect the arrears returned by Mr. Andrew Moore, Mr. Kelly to collect the arrears returned by Mr. George Moore and Mr. George Bury to collect the arrears returned by messieurs Nathaniel Stakes and Richard Gladwell. m. 19.

Your treasurer laid before us a rental of your honours' estate as it stood the 29th day of September, 1779, together with the arrears of rent due the preceding year. Duty of inferior city officers.

Report.

'We, the committee appointed for inspecting the duty of inferior city officers, to whom the petitions of John Barnett, William Stordy, John Vernon O'Neill, Thomas Massey, David Gass, and John Giles, late serjeants at mace, praying to be restored to their former offices, and also the petition of William Eustace praying to be appointed a serjeant at mace were referred, met on the 23rd day of August last, and having enquired minutely into the conduct of the several petitions, are of opinion that John Barnett, John Vernon O'Neill or John Giles are not fit or proper persons to be restored to their respective employments, but from some favourable circumstances appearing to us in favour of William Stordy, Thomas Massey and David Gass, we are induced to think them proper persons to be restored on their severally entering into security for the faithful discharge of their respective duty in such office of serjeants at mace but not otherwise, and we are also of opinion that William Eustace be appointed a serjeant at mace during your honours' pleasure, not exceeding one year upon his taking the usual oath and entering into sufficient security for the faithful discharge of the duties of said office, all which is submitted to your honours.' m. 25.

We took into consideration Clements, bason-keeper. the petition of Dalway Clements, bason-keeper, praying an addition to his salary in consideration of his extraordinary trouble in said employment, and it appearing to us that said Clements has now much more trouble than any former bason-keeper, he being obliged to attend the arch where the main pipes lie, examine the pipes several times a day, and turn the cocks according as the service of the city require, we agreed that Salary. in future he be paid £30 yearly, instead of his former salary of £18, the same to commence from the 25th of March last and for his past additional trouble.

'The petition of Mrs. Letitia Wall, and find that your honours did, by lease dated the 17th July, 1746, grant unto alderman John Cooke, in trust for and as guardian to her, a piece of ground in Oxmantown known by the name of the Blackamoors in Church street, containing and described as therein set forth for the lives of the said Letitia by the name of Letitia Hudson, Daniel Jackson, and Sarah Leeds and the survivor of them and for the lives of such other person and persons as should for ever thereafter be nominated and added thereto, pursuant to the covenant for renewal therein, at the yearly rent of £14, and half a year's rent as a renewal fine on the fall of each life, we also find that the said Letitia Wall did at Easter assembly, 1779, prefer a petition stating her title and praying to have a renewal by inserting the lives of his royal highness George, Prince of Wales and Frederick, bishop of Osnaburgh, in the room of Daniel Jackson and Sarah Leeds, which your honours granted upon a new survey being had of the premises and a full and equitable compensation being made in the payment of the fines and the interest thereof every seventh year, the reverend Mr. Cuff attended on behalf of said Mrs. Wall, and informed us, that in consequence of such order, he

'We also request you will be pleased to endeavour to remove the obstructions to the sale of Irish manufactures in Portugal and to procure a sufficient number of ships of force for the defence of our trade, as during the present war the number of vessels captured on our coast have not only been an immense loss to Great Britain and Ireland, but has also proved of the utmost advantage to the enemy, to prevent which in future is an object of the highest importance, as our trade in general lies exposed to the depredations of every petty adventurer, notwithstanding the readiness of the lord lieutenant to obtain convoys on particular applications to his excellency and the useful communications of intelligence from Mr. Secretary Eden and his very laudable and polite attention to the applications of our merchants.

We took into consideration a petition referred to us by your honours for a wall to be built adjoining the river Liffey from Coal quay bridge up to the wall of Essex quay and pursuant to the powers given to your committee, on the 30th day of July ordered an advertizement to be inserted in the public papers, setting forth that we were ready to receive proposals for building and finishing such wall agreeable to the plan laid down by your surveyor, and on the 13th and 20th of August last we received several proposals for doing the said work, but thinking it would be necessary to have said wall finished with a parapet and to have four steps therein, each to be six feet wide, postponed the consideration of such proposals until such time as the several persons who had proposed were made acquainted with your committee's intention, and on the 27th of August we again met and took the several proposals into consideration and finding that Mr. Ambrose Binns had proposed to supply the iron work that would be necessary for 4d. per pound, being 1d. less per pound than any other proposal, we agreed that Mr. Binns should furnish such iron work at the said price, and Mr. William Pemberton having proposed to finish the grouted work at 7s. 4d. per perch, the parapet wall at 6s. per perch, the ashler work at 6d. per foot, and to allow £11 7s. 6d. for the old materials, we agreed to said proposal, and also agreed that such carpenter's work, as would be necessary in completing said wall, should be done by Benjamin Eaton, and ordered that the whole of said work should be done and completed in a workmanlike manner, under the inspection of sir Thomas Blackall, Mr. Leet, Mr. John Binns, Mr. Joseph Pemberton, Mr. Horne, Mr. John Wilson, and Mr. Magee, whom we

On the 24th of September aforesaid, Daniel Hautenville, one of your turncocks, having applied to us to be considered for his extraordinary trouble and it appearing that there had been an additional number of cocks lately laid in his division, we were of opinion, that he be allowed a sum of £10, for such his extraordinary trouble; George Gee and Nathaniel Walker applied to your committee by petition to be considered for their extraordinary trouble in their different departments, we are also of opinion that for the care they have heretofore taken of the works, they be each allowed a sum of £10.' 'We inform your honours, that on the 19th day of September last we met, when Mr. Mathews, your surveyor, laid before us his account for surveying part of the city's estate from the commencement of the present year amounting to £199 8s. 6½d., out of which he gave credit for £100, which was ordered to be paid him last assembly, so that there appears a balance on said account to be due to Mr. Mathews of £99 8s. 6½d., which sum we are of opinion he be paid; on the same day your committee having carefully examined into such part of your honours' title deeds as related to the ground on and adjoining with the new Custom House is now building, were of opinion that the whole of such ground was your honours' estate and upon a minute enquiry and examination into such deeds, were also of opinion that a particular part of such ground inclosed by direction of the commissioners for the purpose aforesaid had never been demised by the city to any person whatever and consequently that the persons, who undertook to demise the same to the said commissioners, had no authority or title so to do, therefore we ordered Mr. Mathews to make a survey of the city ground upon and adjoining which the said Custom House is erecting, in order that your committee might be enabled to trace therefrom such parts of it as have not been demised by the city, and on the 26th of September aforesaid Mr. Mathews laid before them such map by which they were confirmed in their opinion that part of said ground inclosed as aforesaid had never been demised by the city to any person, whereupon they ordered your law agent with the assistance of alderman Horan, Mr. Wilson, Mr. John Binns, Mr. Ambrose Binns, Mr. Pemberton, Mr. Magee, and Mr. Lord to prepare a case and lay the same before the Recorder for his opinion and advice for their future conduct how to proceed in the matter,

Report. 'We inform your honours, that we have carefully attended to the business to us committed since our last report. On the 21st of October last we received a memorial from the governors of Saint Catherine's parish, requesting a supply of water for the use of their parish school without any expense, which was granted. On the 18th of November we were attended by Joseph Deane, esquire, requesting liberty at his own expense to put in a bore of two inches to supply his demesne at Terrenure with water through the wall that hath been lately erected to prevent the water from going to waste therein, and Mr. Deane having then promised in writing, that upon getting such supply of water, he would enter into any contract that might be thought necessary, we referred the matter for the direction of Mr. Recorder, Mr. Deane having agreed to abide by his opinion, and in the meanwhile ordered that Mr. Deane should have liberty to place a two-inch bore through the said wall under the inspection of Mr. Mylne.

Wall, Dolphin's Barn. Reward.

'On the 23rd of December, Mr. Guinness and Mr. Rainsford attended and agreed to a reference to settle the matter in contest between them and the city, and then named Arthur Wolfe, esquire, as their referee, and your committee named William Whittingham, esquire, on behalf of the city; and in case it might be necessary for a lawyer to attend said referees, we directed that Dudley Hussey, esquire, be employed on your honours' behalf, and that a submission be forthwith prepared and the reference completed without delay. 'On the 30th December, we ordered that Dalway Clements, the present bason keeper, be dismissed from said employment, it appearing to us that from the various complaints of his frequent irregularities, he is an unfit person to fill such an employment, and we have placed Samuel Jones in his room until the ensuing assembly. Clements, bason keeper, dismissed. Jones, appointed.

'We have considered the petition of James Fleming referred to us and are of opinion upon hearing the report of a sub-committee to whom we referred the matter, that a wall be built at the city's expense some time in the ensuing season in order to enclose Mr. Fleming's ground near the back course of the bason.' It was thereupon granted, the committee's report confirmed and made an act of assembly. Order.

The address prepared, put under the city seal, and presented accordingly, which is as follows. City seal.

ADDRESS.

'To his excellency George Nugent Grenville, earl Temple, lord lieutenant general and general governor of Ireland. Earl Temple, lord lieutenant.

'The humble address of the Lord Mayor, Sheriffs, commons, and citizens of the city of Dublin in common council assembled. Address.

'May it please your excellency.

'We, the Lord Mayor, Sheriffs, commons, and citizens of the city of Dublin in common council assembled, unanimously think it our indispensable duty at this time to approach your excellency with our sincere acknowledgments for your prudent and indefatigable regard to the honour and welfare of this country. Corporation of Dublin. Duty. Regard.

'Your excellency's early attention to the removal of all doubts relative to the independency of the legislation and jurisdiction of the parliament of Ireland, the general and oeconomical reform introduced into several departments of the state and the many great and apparent advantages we enjoy and are likely to experience from your excellency's wise, firm, and virtuous administration must at all times excite and demand the highest expressions of gratitude and make us earnestly solicitous for the continuance of your government over a people affectionate to your person and truly sensible of your honourable intentions. Critical time. 'In that persuasion, we cannot but represent to your excellency, that as the time is critical and important, no circumstance whatsoever should induce a change, which might prejudice, but cannot benefit this country, and your excellency must be convinced there are situations in which the yielding even to the finer feelings of the mind (however amiable in private life) must be considered as political error and a

HIS EXCELLENCY'S ANSWER.

Answer. "I am too sensible to this address of affectionate

Roll xxiii. A. m. 86 d. regard to answer it in the common expressions of good will; my heart is indeed too full. I truly feel an honest pride in receiving such a testimony of the sense, which the city of Dublin entertain of my zeal to promote that first object of my wishes, the constitutional and commercial freedom of Ireland. To such an object, I would gladly sacrifice every private feeling, and as long as I can flatter myself, that my exertions are acceptable to his majesty or may be serviceable to this kingdom, I will hope that no circumstances will prevent me from continuing to you that proof of my interest in your prosperity, which an unremitting attention to the great lines of an honest government can so truly give; but in every situation, I never can forget how much I owe to your affection, and my constant prayer, my constant object, will be that the honour, pride, and happiness of Ireland may be perpetual, and that it may be founded on the surest basis of a liberal and constitutional connexion with your sister kingdom." 1783. Report. 'We, the committee appointed to settle the parliamentary disbursements and accounts of Mr. Edward Scriven, find that during the last session of parliament a multiplicity of business was agitated, in which this city in particular and the kingdom in general were materially interested, and that he conducted the same (under the direction of your committee) with the utmost assiduity, care, and attention, during which time he regularly attended them at their several meetings at the Tholsel and Mansion House, and from time to time carried their orders into execution, that by some inaccuracy in framing the order appointing him, we advanced large sums of money upon that account. We have examined the said account and find that his disbursements together with his incidental business in that department amounts to the sum of £415 14s. 1d., and that he has given credit for the city's order of last assembly for £200, so that there remains due to him upon that account the sum of £215 14s. 1d., to which is to be added the sum of £50 0s. 8d., remaining due to the several public offices and others for their several bills, making in the whole the sum of £265 14s. 9d., which we are of opinion and do recommend that Mr. Scriven be paid in full for his disbursements and attendances during the said session.'

Coal trade.

Report. 'We, the committee appointed for the regulation of the coal trade, in pursuance of the powers given us by your order of the 19th of November last, prepared and presented to his excellency the lord lieutenant such an address as we thought the nature of the then times required respecting the coal business, upon which his excellency was pleased to signify his desire of relieving the poor as far as in his power lay, and that he would cause a sum of £3,000, to be advanced for the purpose of purchasing coals for the relief of the poor of this metropolis. In consequence of which, your committee caused an advertizement to be published in the public papers, to enter into a treaty with any captains or owners of vessels in order to bring over such coals, but we were not fortunate enough to meet with any person who would engage in the business. Your committee consider your honours and the city of Dublin at large most particularly indebted to his excellency and also to his secretary Mr. Grenville for the extraordinary attention they have paid, in order to effect a reduction in the late high price of that necessary article and also for their interference with Sir James Lowther upon the subject, which has produced an offer from that gentleman of 2,000 tons of coals to be delivered at Whitehaven free of all expenses, on board such ships as the city of Dublin shall think proper to send for them and desires that the city will accept of them as a present from him for the poor of Dublin. And for this extraordinary mark of his excellency's attention, as also that of his secretary to this city, we are of opinion and do recommend that the thanks of the cor-

'We met on the 23rd of May last for the purpose of enquiring into the business to us referred from the last assembly and took into consideration the petition of George Carroll, esquire, praying your honours to accept of a surrender of his old lease of some concerns at Gorman's gate and thereupon to grant him a new lease thereof at such advance rent as might be reasonable, but we are of opinion it will be more for your advantage to suffer the present lease to expire and then to cause the ground to be set by public cant as usual. That a sum, not exceeding £400, be expended on the proper conveniences for carrying on the said business, that Mr. Andrews shall take a lease of the said premises for one year or during his continuance in the employment and that he shall pay at the rate of £6, per cent., for the said sum of £400 to be added to the £13 13s., ground rent, so that the whole rent payable by him must be £37 13s. annually. Grateful thanks.

'They reflect with the highest satisfaction on the uniform wisdom, firmness, and unbiassed dignity (exerted on occasions the most critical) that distinguished your lordship's conduct, when you presided in the assembly of the commons of Ireland, and shall hold in grateful remembrance the anxious concern that your lordship has always manifested for the improvement of the agriculture and extension of the manufactures of this kingdom, which has been particularly widened by the excellent laws for bounties on corn and for the exemption of certain raw materials from the payment of duties, which owed their existence to your lordship's penetration and influence. But above all, they hope that it shall never be forgotten, when from the venerable shade of retirement your lordship yielded up the sacred trust undiminished and zealous with patriot virtue you fervently prayed for the perpetual preservation of our constitution, which your lordship's abilities were so often the guard of in the hour of danger. m. 182 b.

We empowered Mr. Mylne to get a sufficient quantity of such timber for the above mentioned purpose. On same day we received a letter from Mr. Gladwell, secretary to the corporation for paving, to have a service laid from College Green to Lazor's Hill, opposite the Incurable Hospital, for the purpose of supplying a conduit they intended to erect there, which we referred to Mr. Mylne, who on the 13th February aforesaid reported to your committee.

A member in his place addressed the chair, and animadverted on the proceedings of last quarter assembly day, relative to the beseeches by grace especial, and read a paper expressive of his thoughts on that subject.—He also read a second paper, being the heads of his address of which the following is a copy.

				£875 0 0

"By the above it appears, that the funds of the corporation have suffered a loss of £875, in the course of the last 8½ years—supposing the same number of persons to be admitted free of the city by grace especial, as had been for the same period of time previous to the raising of the fines—and from the increase of the inhabitants of the city, there is every reason to presume that the number would not have been lessened, however they might have increased it."

Commons Journal. 60.

The above being read, it was moved that a copy thereof be sent to the Lord Mayor and Board of Aldermen, at the same time requesting the board to agree with the Sheriffs and Commons, that the beseeches for the guild of merchants may stand at £8, and the junior guilds at £4, each, and that the board be informed, that all city business for this day must stop, until this house receive an answer to the message.—A member mentioned his fears, in the danger of making an act of assembly, stating the admission through any of the corporation by grace at a particular sum, and that such a measure would be attended with inconveniences and hardships.—This answered by a gentleman of a contrary opinion, and the house moved to come to the following resolution, viz.:— 1782. Franchises.

"Resolved, that a message be sent to the Lord Mayor and Board of Aldermen requesting they will send down the petitions of those gentlemen who have applied to be admitted into the franchises of the city by grace especial—and that the board be informed, that all city business must cease until the same is settled."

Question put thereon and allowed unanimously.

"Resolved, that the state of the freemen for these 17 years last past be likewise laid before the board."

Question put thereon and allowed nem. con.

Moved, that the beseeches by grace, now in possession of the chair be sent back.—A member mentioned that in the last accounts of the city treasurer, the admissions of freemen are not introduced, and therefore he thought it advisable, that the treasurer should in future have a person to receive the money on the day of swearing into the franchises of the city—and the house was moved to come to the following resolution, videlicet:—

1782. Franchises. "Resolved, that the treasurer be directed in future to introduce in his accounts the number of freemen's fines as formerly." Commons Journal. 60.

Question put and allowed.

This last with the other resolutions, as also the list of admitted freemen by grace especial for the last 17 years was sent to the other house. 60 b.

Alderman Exshaw from the board, read and delivered to the Sheriffs a paper, of which the following is a copy.

"The Lord Mayor and Board of Aldermen think the message sent to them from the Sheriffs and Commons, conceived in improper terms, and therefore will not consent to alter their resolutions relative to the admission of persons to their freedom by grace especial, yet, being desirous of promoting harmony between the two houses, they are willing on the next quarter assembly to take the subject into consideration, and for that purpose to meet the Sheriffs and Commons at a conference."

The above being read by the clerk, it was moved that same be sent back requesting an amendment thereto, and, that the paper sent up may be returned.—Objected to—as this house should support her own consequence.—Moved for, and message sent desiring the conference immediately.—Answer,—the board will send an answer directly.

Alderman Exshaw from the board, read the following answer to the last message.

"The board cannot agree to the conference this day."

Motion made, that this house do now adjourn,—a member proposed an amendment,—that this house do adjourn for one hour and also moved, that any business now in possession of the chair be proceeded on.—

Commons Journal. 60 b. Objected to, as the house should at this time support her own consequence, and therefore adjourned finally. 1782. Franchises.

Question for adjourning debated, as not being competent to adjourn, except to some particular time in the course of the day.

61. The house was then moved to come to the following resolution, videlicet:—

"Resolved, that a message be sent to the Lord Mayor, to request he will adjourn the assembly, the Commons being determined not to proceed upon any business without a conference being first held between the two houses on the subject of admitting by grace especial."

Question put thereon, and allowed unanimously, and same sent to his Lordship by Mr. John Binns and Mr. James Napper Tandy, as also Mr. Henry Howison, who was requested by the chair to accompany the two gentlemen.

Alderman Exshaw from the board presented the chair with more of the business of the day and addressed the Sheriffs verbally thus:—

"The Lord Mayor and Board of Aldermen are going on with business, and hope the Sheriffs and Commons will proceed with it as usual."

The officer of commons proclaimed, that an alderman desired admittance.—The Sheriffs desired to know from the house should the alderman be admitted,—a member mentioned,—if it was a message from the board, well, otherwise it was a matter to be considered, whether more business should be received.

The Sheriffs therefore called on a gentleman for his opinion, who gave, that the Sheriffs must take the business from the alderman when admitted, and proceed with the business of the day.

1783. Franchises

The house adjourned for an hour.—House re-assumed. Commons Journal. 61.

A member contended, that the house had a right in themselves to adjourn to any future day, and moved that a similar case be now read in the journals of the house Midsummer assembly 1755, which being read, it was moved, that this house do adjourn themselves until summoned by the Lord Mayor.

Alderman Exshaw from the board delivered more business to the chair.

The resolution of 1755 again read,—a long debate ensued thereon, in which it was contended, that, that resolution was not a sufficient or proper precedent to found their resolutions or intentions upon of adjourning of themselves.—On the other side it was insisted on, that this house as a part of the legislative government of the corporation, have a right, and if on no other account the very precedent of 1755 is a sufficient power.—In reply it was observed, that the cause of adjournment in 1775 was, that an alderman (Crampton) though a Sheriff at the same time, was in the chair, and therefore, improper to preside as chairman in the Commons house. 61 b.

It was thought advisable by a member, that as the Recorder was in the other house, he should be sent for, in order to hear his opinion on the present matter in agitation, and moved accordingly.—Objected to, as the question of adjournment was in possession of the chair,—a member observed that the precedent contended for was in the year 1775, consequently prior to the new act of parliament passed in the year 1760, therefore moved that the motion of adjournment may be withdrawn and the Recorder sent for.

Question of adjournment proposed to the house, videlicet:—

Commons Journal. 61 b. "Resolved, that this house do adjourn until duly summoned by the Lord Mayor." 1783. Franchises.

Agreed to.

The Sheriff then read the resolve for adjourning and declared his opinion that the ayes had it,—a ballot demanded and had accordingly.

Mr. Crothers, Mr. Tandy, Mr. Moncrieffe, Mr. Haughton, appointed tellers.

For the adjournment 48. Noes 33.

Ordered, that the clerk of this house lodge a proper notice in the Town Clerks' office of the above adjournment, which was done accordingly as per copy. 62.

"Gentlemen.

"I am directed to give notice, that the Sheriffs and "Commons did yesterday (being Midsummer assembly) "adjourn the consideration of the remaining business "of the day, until duly summoned by the right honour- "able the Lord Mayor.

"John Pursell, Clk: Coms:

N.B.—Previous to the Sheriff leaving the chair, the house agreed, that all papers relative to the business of the day (sent from the Lord Mayor and Board of Aldermen) should remain in his hands, until such time as the house would be called together, and that same be enclosed under cover, endorsed, and sealed.

FENCIBLE REGIMENTS, ETC.

Commons Journal. 62 b.

1782. 1782. September 16.—Post Assembly.

Cleansing streets. [1.] Summons, to take into consideration the expediency of setting up carts to cleanse the streets of the city, and to strike out some other mode of having the same cleansed.

Message sent, that the Sheriffs were ready for business.—Alderman Horan from the board.

"The Lord Mayor and Board of Aldermen desire a conference with the Sheriffs and Commons on the business of the day."

Question put thereon and agreed to, and the house adjourned for ten minutes.

Note, did not return from the conference.

1782. September 27.—Post Assembly.

Duke of Portland. [1.] Summons, in order to address his grace the Duke of Portland, previous to his departure from this kingdom.

Fencible Regiments. [2.] Second summons, in order to take into consideration the conduct of certain persons who are beating up for recruits for the purpose (as alleged by them) of forming fencible regiments.

By order, the two summons of the day were read by the clerk—a member in his place reprobated the measure of recruiting for the fencible regiments, and that, even without the concurrence or approbation of the magistrates, as well as repugnant to the constitutional laws of the kingdom, etc., and moved for leave to read a few resolutions he had drawn up relative to that business. 63.

Moved, that a message be sent to the other house,

Commons Journal. 63. that the Sheriffs were ready for business; also moved, 1782. Duke of Rutland. that the business that concerned the Duke of Rutland be proceeded on.

A long debate took place, when a motion was made for counting the house, which being seconded thereto, and on telling the same, there appeared only 37 members present.

Note, the Sheriff kept the chair about an hour, before the question for leaving it was put.

1782. October 5.—Post Assembly.

Fencible Regiments. [1.] Summons, to take into consideration the conduct of certain persons who are now beating up for fencible regiments in this city.

Alderman Sutton from the board.

"That the Lord Mayor and Board of Aldermen are ready to receive the commands of the Sheriffs and Commons."

A member, after a short preface, read and moved the house to come to the following resolutions, which being again read by the Clerk paragraph by paragraph, created some debates, particularly the second resolve (after the first had passed nem: con:), when a motion was made, that the Sheriff do leave the chair, which
63 b. not being seconded, another motion was made—that the house do now adjourn.

Question put thereon and apparently negatived—a ballot demanded and had accordingly, and Mr. Sankey, Mr. John Wilson, Mr. Worthington, Mr. John Binns were appointed tellers.

For adjourning, Ayes 10. Noes 43.

RESOLUTIONS.

Resolutions. 1. "Resolved unanimously, that, at the close of the last sessions of parliament, when the munificence of the

1782. Fencible Regiments. Resolutions.

legislature had voted £100,000, to assist in manning the British Navy, and 5000 of her land forces to be employed as Great Britain should think fit; it appears to this house, that the internal strength of the nation was considered by our parliament, as sufficient to protect us against foreign or domestic enemies." Commons Journal. 63 b.

2. "Resolved therefore, (with one dissenting voice), that the raising new regiments, under the denomination of fencibles or provincials, appear to us, calculated to injure the Volunteer cause—increase the influence of the Crown, and lay a heavy and unnecessary burthen on the inhabitants of this distressed country—beside, conveying an ungenerous distrust of those, who have already declared their determination of standing or falling with the British Empire."

3. "Resolved unanimously, that, as additional levies must produce additional taxes and of course prevent that plan of oeconomy, and retrenchment, which we were taught to believe would be adopted in this kingdom— and that the said levies are to be made without the concurrence of our parliament—it becomes the duty of those, who have delivered, that—"they will not be governed by any laws; but those made by the King, Lords and Commons in Ireland"—to stand forth and publicly declare their resolution of opposing to the utmost of their power—this innovation on our national rights." 64.

4. "Resolved therefore, unanimously, that it be an instruction to our worthy representatives in parliament, Sir Samuel Bradstreet, baronet, and Travers Hartley, esquire,—that they do in the next session of parliament, oppose to the utmost of their power, any tax or taxes which may be proposed, for the raising or paying of the said fencibles."

And it appearing to this assembly, that certain

Commons Journal. 64. persons are beating up in the city for recruits for the said fencible regiments (without the authority of our magistrates), it is resolved, (with one dissenting voice), that, the Lord Mayor and Board of Aldermen, be requested to use their utmost endeavours to suppress the same. 1782. Fencible Regiments.

"Resolved, (with one dissentient voice), that, a message be sent to the Lord Mayor and Board of Aldermen, to request their concurrence with these resolutions."

"Resolved, that a fair copy of the first four resolutions be presented to our representatives in parliament."

Alderman Rose from the board delivered to the chair the following verbal message, videlicet.

64 b. "The resolutions not being particularized in the summons of the day, they cannot go into them—the last one they had disposed of."

The house was then moved for, and came to the following resolution nem: con:—

"Resolved unanimously, that, the resolutions entered into this day, together with the answer returned to this house by the Lord Mayor and Board of Aldermen, be published in the public papers, as also the summons of the day and signed by our Clerk."

Memorandum. The alderman also delivered the following message verbally to the house.

"The Lord Mayor will be punctual to the hour mentioned in the summons, for any business that is to be done either in the assemblies or committees, and hopes the gentlemen of the Commons will be punctual in their attendance."
